## INDEPENDENT AUDITOR'S REPORT

Governing Board  
Perris Union High School District  
Perris, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perris Union High School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## *Opinions*

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Perris Union High School District, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## *Other Matters*

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14, budgetary comparison schedule on page 69, schedule of other postemployment benefits funding progress on page 70, schedule of the district's proportionate share of net pension liability on page 71, and the schedule of district contributions on page 72, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Perris Union High School District's basic financial statements. The accompanying supplementary information such as the combining and individual non-major fund financial statements and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2017, on our consideration of the Perris Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Perris Union High School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Perris Union High School District's internal control over financial reporting and compliance.

This section of Perris Union High School District's (the District) (2016-2017) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2017, with comparative information from 2016. Please read it in conjunction with the District's financial statements, which immediately follow this section.

## ***OVERVIEW OF THE FINANCIAL STATEMENTS***

### ***The Financial Statements***

The financial statements presented herein include all of the activities of the District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District, as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statements in regards to interfund activity, payables, and receivables.

The *Fund Financial Statements* include statements for each of the two categories of activities: governmental and fiduciary.

The *Governmental Funds* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The Primary unit of the government is the Perris Union High School District.

## ***FINANCIAL HIGHLIGHTS OF THE PAST YEAR***

With the Local Control Funding Formula or LCFF, the District is given flexibility to make funding decisions that provide the most impact and be most beneficial for our students. Here at Perris Union High School District (PUHSD), we embraced the opportunity for local control and are providing a vast array of innovative programs and opportunities for our students. With this local control comes accountability, the District's Local Control Accountability Plan, or LCAP goals are:

- Goal #1: All students will attain proficiency in all academic areas.
- Goal #2: All students will graduate from high school prepared for postsecondary and career options.
- Goal #3: All departments and sites will provide a safe and positive learning environment for all students and staff.
- Goal #4: Secure and strengthen home-school-community connections and communications.

# PERRIS UNION HIGH SCHOOL DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2017

---

It is with these goals in mind that our District developed new and innovative programs and opportunities for our students that guide spending.

During 2016-17 school year, the District has continued to focus on student engagement and course offerings to increase student attendance. The continued focus on Science, Technology, Engineering, Arts and Math (STEAM) has resulted in higher student test scores and graduation rates. In addition to its ongoing efforts in the maintenance and repair of existing facilities, the District continued its aggressive facilities acquisition, construction, and modernization programs. During the 2016-17 school year, construction began on the next phase, Phase 2B, of the Perris High School Campus Transformation Project. The Phase 2B project includes a single story building addition to the Perris High School campus. Included in this phase is a student union, kitchen facilities, engineering and auto shop classrooms and shop areas as well as a culinary program, kitchen and classroom. In addition to the Phase 2B project, construction also began on Phase 2 of the Agricultural Facility at Perris High School. The Ag Phase 2 Project is a two story classroom building which will house 8 classrooms that include science labs, a floral shop with coolers and storage areas, teacher collaboration area, a lecture room as well as outdoor project area with large planters for student projects. Both projects are scheduled to open in the fall of 2018. The artificial turf field at the Perris High Stadium was also replaced during the 2016-17 school year, in time for the 2017 school year.

### ***REPORTING THE DISTRICT AS A WHOLE***

#### ***The Statement of Net Position and the Statement of Activities***

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include *all* assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's operating results. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we present the District activities as follows:

***Governmental Activities*** - The District reports all of its services in this category. This includes the education of seventh through twelfth grade students, adult education students, the operation of a community day school program, two charter schools, and the on-going effort to expand, improve, and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State, and local grants, as well as general obligation bonds, finance these activities.

# PERRIS UNION HIGH SCHOOL DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

---

### ***REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS***

#### ***Fund Financial Statements***

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

***Governmental Funds*** - All of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

### ***THE DISTRICT AS A TRUSTEE***

#### ***Reporting the District's Fiduciary Responsibilities***

The District is the trustee, or *fiduciary*, for funds held on behalf of others, such as funds for Special Tax Bonds and associated student body activities. The District's fiduciary activities are reported in the *Fiduciary Funds - Statements of Net Position*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### *THE DISTRICT AS A WHOLE*

#### *Net Position*

The District's net position was \$150,906,423 for the fiscal year ended June 30, 2017. Of this amount, (\$91,915,833) was unrestricted deficit. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the Governing board's ability to use net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

### *Governmental Activities*

As reported in the *Statement of Activities* on page 16, the cost of all of our governmental activities this year was \$146,734,511. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$36,405,092. The remaining cost was paid by those who benefited from the programs; \$2,505,301, or by other governments and organizations who subsidized certain programs with \$21,055,594 in grants and contributions. We paid for the remaining "public benefit" portion of our governmental activities with State funds, and with other revenues, like interest and general entitlements.

In Table 3, we have presented the cost of each of the District's largest functions: instruction and instruction-related, pupil services, administration, maintenance and operations, and other outgo. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

### *THE DISTRICT'S FUNDS*

As the District completed this year, our governmental funds reported a combined fund balance of \$77,865,320 which is an decrease of \$11,060,992, from last year (Table 4).

**Table 4**

	Balances and Activity			
	July 01, 2016	Revenues	Expenditures	June 30, 2017
General Fund	\$ 12,013,911	\$ 119,830,387	\$ 117,364,784	\$ 14,479,514
Charter School Fund	2,708,389	10,984,522	11,265,365	2,427,546
Building Fund	30,785,199	193,620	14,933,878	16,044,941
County School Facilities Fund	9,881,476	87,597	-	9,969,073
Capital Projects Fund for Blended Component Units	8,061,982	1,714,675	640,454	9,136,203
Bond Interest and Redemption Fund	10,912,277	9,452,593	9,507,979	10,856,891
Non-Major Governmental Funds	14,563,078	8,692,067	8,303,993	14,951,152
<b>Total</b>	<b>\$ 88,926,312</b>	<b>\$ 150,955,461</b>	<b>\$ 162,016,453</b>	<b>\$ 77,865,320</b>

The primary reasons for the increases and decreases to the District's' fund balances are:

1. As the District's principal operating fund, the General Fund is comprised of unrestricted as well as restricted dollars. The fund balance in the General Fund increased by \$2,465,603. The net increase is primarily due to both restricted and unrestricted resources balance carried over to be spent in the 2017-2018 school year. Multi-year plans have been developed by the districts such as the Local Control Accountability Plan (LCAP) and the Educator Effectiveness Grant Plan to assist in the spending down of one-time monies or carryover from the prior year.
2. The Charter School Fund balance decreased by \$280,843. The net decrease is primarily due to long-term substitute employees and increased field trip activity.
3. The Capital Facilities Fund, County School Facilities Fund, and the Bond Building Fund decreased by \$14,708,046 collectively due to multi-year facilities projects.

### *General Fund Budgetary Highlights*

Over the course of the year, the District revises its budget as it attempts to manage unexpected changes in revenues and expenditures. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our audit report on page 69.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017

---

### *CAPITAL ASSET AND DEBT ADMINISTRATION*

#### *Capital Assets*

At June 30, 2017, the District had \$298,972,468 in a broad range of capital assets (net of depreciation), including land, buildings, and furniture and equipment. This amount represents a net increase (including additions, deductions, and depreciation) of \$13,865,923 or 4.87 percent, from last year (Table 5).

**Table 5**

	Governmental Activities	
	2017	2016
Land and construction in progress	\$ 63,008,713	\$ 44,314,689
Buildings and improvements, net of depreciation	233,922,657	239,006,737
Furniture and equipment, net of depreciation	2,031,098	1,775,119
<b>Total</b>	<b>\$ 298,962,468</b>	<b>\$ 285,096,545</b>

This year's increase of \$13,865,923 is primarily a result of facilities improvement projects, including new construction and modernization projects. We present more detailed information about our capital assets in Note 5 to the financial statements.

#### *Long-Term Obligations*

At the end of this year, the District had \$143,900,487 in long-term obligations outstanding versus \$149,196,446 last year, an decrease of \$5,295,959 or 3.55 percent. These long-term obligations consisted of:

**Table 6**

	Governmental Activities	
	2017	2016
General obligation bonds	\$ 129,174,684	\$ 133,054,836
Certificates of participation	6,420,000	6,755,000
Qualified school construction bonds	1,457,084	1,576,366
QZAB lease purchase agreement	5,000,000	5,000,000
Capital lease obligations	688,290	1,176,543
Other	1,160,429	1,633,701
<b>Total</b>	<b>\$ 143,900,487</b>	<b>\$ 149,196,446</b>

General Obligation Bonds, Capital Lease, and Certificates of Participation obligations decreased by the required annual principal payment. Other obligations include accumulated vacation payable and SERP and Choice 2000 retirement payable. We present more detailed information regarding our long-term obligations in Note 9 of the financial statements.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

**JUNE 30, 2017**

### *Net Pension Liability (NPL)*

At year-end, the District has a pension liability of \$106,444,298 as a result of implementing GASB Statement No. 68.

### ***SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2016-2017***

With the addition of a seven-period day in the 2015-2016 school year, the District has continued to focus on High School Graduation and College and Career preparedness by increasing the amount of rigorous college preparatory courses offered and creating more opportunities for students to be future ready through more exposure to college and career readiness activities. This additional period greatly increases our students chances of completing their A-G requirements for colleges and universities. It has also given our students greater opportunities to take foreign language, art, music, and career technical education classes.

The district has greatly expanded its offerings in Dual Enrollment college credit courses, Advanced Placement courses, and Career Technical Education courses. The district has increased the number of CTE courses taken with an increase of 14.6% from 2015-16 to 2016-17. Over the last three years, AP enrollment has increased by 32.6%, with an increase of 17.3% from 2015-16 to 2016-17. Dual Enrollment course enrollment has increased 31.2% during the 2016-17 school year. The district has also committed over \$650,000 of LCAP S/C funds to support the AVID program, with an average of 85 teachers and 10 paraeducators attending AVID Summer Institutes promoting AVID teaching and learning strategies. In 2016-2017, there was a 49.70% increase in AVID enrollment with 624 new students participating in the program districtwide.

The last three years, the District implemented a district-wide Kick-off to College event. Over 9,000 students in all grade levels from all schools participated in activities that focus on preparing students to be college and career ready. On the day of the event, students engaged in specific activities that prepare them for post high school success. The activities included; career interest surveys, college interest and planning surveys, completion of college applications, career presentations, and Free Application for Federal Student Aid (FAFSA) workshops. These efforts have resulted in an increase of more than five percent to both the District's A-G Completion Rate and the District's Graduation Rate over the last three years.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2017**

---

### ***ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES***

In considering the District Budget for the 2017-2018 year, the governing board and management used the following criteria at adoption:

1. District enrollment of 9,968 and the Charter School's enrollment of 1,041 were projected to be 11,009 in total. This represented an increase of 0.87 percent District-wide. Overall District Average Daily Attendance (ADA) including charters was projected to be 1041. This represents an increase of 27 ADA.
2. Lottery funding for 2017-2018 was projected to be \$189 per prior-year annual ADA. This per pupil rate reflects \$144 per pupil for unrestricted lottery revenues and \$45 per pupil for lottery funding restricted to the purchase of instructional materials.
3. LCFF was calculated at \$10,588 per ADA. This included a statutory Cost of Living Adjustment (COLA) of 1.560 percent and is a 3.02 percent increase to the 2016-2017 LCFF entitlement.

### ***CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT***

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact Candace Reines, Deputy Superintendent, Business Services, at Perris Union High School District, 155 E. 4<sup>th</sup> Street, Perris, California 92570, or e-mail at [candace.reines@puhsd.org](mailto:candace.reines@puhsd.org).

---

**Total Net Change in Fund Balances - Governmental Funds** **\$ (11,060,992)**

**Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:**

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.

This is the amount by which capital outlays exceeds depreciation in the period.

Capital outlays	\$ 20,959,629	
Depreciation expense	<u>(7,093,706)</u>	
Net Expense Adjustment		13,865,923

In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) and supplemental retirement are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Vacation earned was less than the amounts used by \$72,426, supplemental retirement earned was less than the amount paid by \$283,346 and settlement agreement paid in the current year was \$117,500.

473,272

In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year.

Repayment of debt principal is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities:

General obligation bonds	\$	5,120,000
Premium for general obligation bonds		372,952
Certificates of participation		335,000
Qualified school construction bonds		119,282
Capital lease obligations		1,338,253

Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the Statement of Activities is the result of two factors. First, accrued interest on the general obligation bonds decreased by \$138,901 and second, \$1,612,800 of additional accumulated interest was accreted on the District's "capital appreciation" general obligation bonds.

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2017

---

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Financial Reporting Entity**

The Perris Union High School District (the District) was incorporated on August 23, 1897, under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades 7 - 12 as mandated by the State and/or Federal agencies. The District operates one middle school, three high schools, a continuation school, a community day school, one charter school, and an adult education school.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Perris Union High School District, this includes general operations, food service, and student related activities of the District.

#### **Component Units**

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component unit discussed below is reported in the District's financial statements because of the significance of its relationship with the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the Governing Board of the component unit is essentially the same as the governing board of the District and because its purpose is to finance the construction of facilities to be used for the direct benefit of the District.

The Perris Valley Schools Capital Facilities Corporation's (the Corporation) financial activity is presented in the financial statements in the Capital Project Fund for Blended Component Units and the Corporation Debt Service Fund. Certificates of participation issued by the Corporation are included as long-term obligations in the government-wide financial statements. Individually-prepared financial statements are not prepared for Perris Valley Schools Capital Facilities Corporation.

The Perris Union High School District Financing Authority (the Authority), formed for the purpose of issuing debt related to the Community Facilities District 91-1 and the Community Facilities District 92-1 (the CFDs), financial activity is presented in the financial statements in the Capital Project Fund for Blended Component Units and in the Fiduciary Funds Statement as the Debt Service Fund for Special Tax Bonds. Special Tax Bonds issued by the CFD's not are included as long-term obligations in the government-wide financial statements as they are not obligations of the District. Individually-prepared financial statements are not prepared for Perris Union High School District Financing Authority.

### Other Related Entities

**Charter School** The District has an approved charter for California Military Institute pursuant to *Education Code* Section 47605. The charter school is operated by the District, and its financial activity is presented in the Charter School Fund.

### Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into two broad fund categories: governmental and fiduciary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

### Major Governmental Funds

**General Fund** The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

**Charter School Fund** The Charter Schools Fund may be used by authorizing districts to account separately for the activities of district-operated charter schools that would otherwise be reported in the authorizing district's General Fund.

**Building Fund** The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

**County School Facilities Fund** The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), the 2004 State School Facilities Fund (Proposition 55), or the 2006 State Schools Facilities Fund (Proposition 1D) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

**Capital Project Fund for Blended Component Units** The Capital Project Fund for Blended Component Units is used to account for capital projects financed by the Perris Valley Schools Capital Facilities Corporation, the 91-1 Community Facilities District, and the 92-1 Community Facilities District that are considered blended component units of the District under generally accepted accounting principles.

**Bond Interest and Redemption Fund** The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

### Non-Major Governmental Funds

**Special Revenue Funds** The Special Revenue funds are used to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to expenditures for specified purposes and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

**Adult Education Fund** The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only.

**Cafeteria Fund** The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

**Capital Project Funds** The Capital Project funds are used to account for financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

**Capital Facilities Fund** The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

**Debt Service Funds** The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligation.

**QZAB Fund** The QZAB Fund is used to account for the accumulation of resources for the lease payment related to the QZAB lease purchase agreement between the District and the Public Property Financing Corporation of California.

**Debt Service Fund** This fund is used for the accumulation of resources for and the retirement of principal and interest on general long-term obligation.

**Debt Service Fund for Blended Component Units** The Debt Service Fund for Blended Component Units is used to account for the accumulation of resources for the payment of principal and interest on bonds issued by the Perris Valley Schools Capital Facilities Corporation, the 91-1 Community Facilities District, and the 92-1 Community Facilities District and similar entities that are considered blended component units of the District under generally accepted accounting principles (GAAP).

**Proprietary Funds** Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the Local Education Agency, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District has no proprietary funds.

**Fiduciary Funds** Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency funds account for the accumulation of resources for the payment of the principal and interest on the Special Tax Bonds issued by the Community Facilities Districts as well as the student body activities (ASB).

### **Basis of Accounting - Measurement Focus**

**Government-Wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide Statement of Activities presents a comparison between expenses, both direct and indirect, of the District, and for each governmental function. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities, except for depreciation. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the District.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their net position use.

**Fund Financial Statements** Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

**Governmental Funds** All governmental funds are accounted for using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting, and the governmental fund financial statements, prepared using the flow of current financial resources measurement focus and the modified accrual basis of accounting.

**Fiduciary Funds** Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

**Revenues - Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter, to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 60 days. However to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose restrictions. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**Unearned Revenue** Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

---

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which have not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

### **Investments**

Investments held at June 30, 2017, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

### **Prepaid Expenditures**

Prepaid expenditures represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures when incurred.

### **Stores Inventories**

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental type funds when used.

### **Capital Assets and Depreciation**

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide Statement of Net Position. The valuation basis for capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets is the same as those used for the capital assets of governmental funds.

Depreciation is computed using the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 25 to 50 years; improvements, 7 to 30 years; equipment, 5 to 20 years.

### **Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the Statement of Net Position.

### **Compensated Absences**

Accumulated unpaid vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide Statement of Net Position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

### **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the governmental fund financial statements only to the extent that they are due for payment during the current year. Bonds, certificates of participation, and other long-term obligations are recognized as liabilities in the governmental fund financial statements when due.

### **Debt Issuance Costs, Premiums, and Discounts**

In the government-wide financial statements long-term obligations are reported as liabilities in the applicable governmental activities. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for pension related items.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

### Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

### Fund Balances - Governmental Funds

As of June 30, 2017, fund balances of the governmental funds are classified as follows:

**Nonspendable** - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

**Restricted** - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

**Committed** - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board. The District currently does not have any committed funds.

**Assigned** - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

**Unassigned** - all other spendable amounts.

## **NOTES TO FINANCIAL STATEMENTS**

### **Spending Order Policy**

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

### **Minimum Fund Balance Policy**

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted one-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

### **Net Position**

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$48,215,699 of restricted net position.

### **Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements.

### **Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### **Budgetary Data**

The budgetary process is prescribed by provisions of the California *Education Code* and requires the Governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

### **Property Tax**

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Riverside bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

### **Change in Accounting Principles**

In June 2015, the GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The objective of this Statement is to improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement No. 43, and Statement No. 50, *Pension Disclosures*.

The District has implemented the provisions of this Statement as of June 30, 2017.

In August 2015, the GASB issued Statement No. 77, *Tax Abatement Disclosures*. This Statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients;

# PERRIS UNION HIGH SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

---

- The gross dollar amount of taxes abated during the period;
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

The District has implemented the provisions of this Statement as of June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions.

Prior to the issuance of this Statement, the requirements of Statement No. 68 applied to the financial statements of all state and local governmental employers whose employees are provided with pensions through pension plans that are administered through trusts that meet the criteria in paragraph 4 of that Statement.

This Statement amends the scope and applicability of Statement No. 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above.

The District has implemented the provisions of this Statement as of June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units - amendment of GASB Statement No. 14*. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, *The Financial Reporting Entity, as amended*. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, *Determining Whether Certain Organizations Are Component Units*.

The District has implemented the provisions of this Statement as of June 30, 2017.

In March 2016, the GASB issued Statement No. 82, *Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73*. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

# PERRIS UNION HIGH SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS JUNE 30, 2017

---

The District has implemented the provisions of this Statement as of June 30, 2017, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

### **New Accounting Pronouncements**

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans.

The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2017. Early implementation is encouraged.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This Statement requires that a government recognize revenue when the resources become applicable to the reporting period.

The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively. Early implementation is encouraged.

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

# PERRIS UNION HIGH SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2017**

---

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Early implementation is encouraged.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation;
- Reporting amounts previously reported as goodwill and "negative" goodwill;
- Classifying real estate held by insurance entities;
- Measuring certain money market investments and participating interest-earning investment contracts at amortized cost;
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus;
- Recognizing on-behalf payments for pensions or OPEB in employer financial statements;

- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB;
- Classifying employer-paid member contributions for OPEB;
- Simplifying certain aspects of the alternative measurement method for OPEB;
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2017. Early implementation is encouraged.

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged.

Total Deposits and Investments	<u>\$ 93,009,748</u>

### Policies and Practices

The District is authorized under California *Government Code* to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

**Investment in County Treasury** - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the County Pool.

### Weighted Average Maturity

The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. Information about the weighted average maturity of the District's portfolio is presented in the following schedule:

Investment Type	Fair Value	Maturity Date
Commercial Paper - F Car Owner Trust	\$ 4,759,444	N/A
First American Government Obligation Fund Class D	784,451	N/A
Money Market	10,402,734	N/A
Riverside County Investment Pool	74,705,178	412*
Total	\$ 90,651,807	

\* Weighted-average days to maturity.

### Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

Investment Type	Minimum Legal Rating	Rating June 30, 2017	Fair Value
Commercial Paper - F Car Owner Trust	Not Required	Not Rated	\$ 4,759,444
First American Government Obligation Fund Class D	Not Required	Not Rated	784,451
Money Market	Not Required	Not Rated	10,402,734
Riverside County Investment Pool	Not Required	Aaa-bf	74,705,178
Total Investments			\$ 90,651,807

### Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California *Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2017, the District's bank balance of \$681,960 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

### NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

Uncategorized - Investments in the Riverside County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements are as follows at June 30, 2017:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Uncategorized</u>
Riverside County Investment Pool	<u>\$ 74,705,178</u>	<u>\$ 74,705,178</u>

All assets have been valued using a market approach, with quoted market prices.

**Qualified Zone Academy Bonds (QZAB) Lease Purchase Agreement**

On December 9, 2003, the District, pursuant to a lease purchase agreement with the Public Property Financing Corporation of California, issued \$5,000,000 Qualified Zone Academy Bonds (QZAB) to provide funds to finance certain improvements, equipment, and related costs for the District's Literacy and Information Technology Academy and to pay certain costs of issuance. The Bonds mature on December 9, 2018, with the entire principal amount of \$5,000,000 due at this date. The Bonds do not bear interest. In lieu of receiving periodic interest or sinking fund payments, qualified buyers will receive an annual Federal tax credit as set by the U.S. Treasury Department. Payment of principal on the Bonds is secured by an initial deposit of \$2,618,141 made by the District on the date of issuance. The initial deposit, together with accrued interest earnings shall be sufficient to make the lease payment in full at maturity. As of June 30, 2017, US Bank held \$4,918,227 for the lease payment.

**Capital Leases**

The District has entered into agreements to lease various facilities and equipment. Such agreements are, in substance, purchases (capital leases) and are reported as capital lease obligations. The District's liability on lease agreements with options to purchase is summarized below:

	School Buses	Equipment Lease
Balance, July 1, 2016	\$ 1,242,236	\$ 850,000
Payments	1,242,236	161,710

2018	<u>\$ 172,715</u>

### Other Postemployment Benefits (OPEB) Obligation

As of June 30, 2017, the District did not have any OPEB obligation. See Note 12 for additional information regarding the OPEB obligation and the post-employment benefits plan.

### Choice 2000 Settlement Agreement

On April 28, 2014, the District entered into a settlement agreement with the Department of Finance, the California State Board of Education, the Superintendent of Public Instruction, and the Controller for the State of California with regard to audit finding 2006-10 for fiscal year 2005-2006 concerning the District's Choice 2000 Online Charter High School. The Parties agreed that the total amount to be disallowed as a result of audit finding 2006-2010 for the 2005-2006 fiscal year shall be \$122,200, which sum represents approximately ten percent of the total overpayment. The penalty amount will be withheld from the District's apportionment over a period of eight years, commencing in fiscal year 2014-2015, without interest, until fully repaid. As of June 30, 2017, the remaining total future payment due was approximately \$76,375. The repayment schedule is summarized as follows:

Fiscal Year	Settlement Payment
2018	\$ 15,275

On April 28, 2014, the District entered into a separate settlement agreement with the Department of Finance, the California State Board of Education, The Superintendent of Public Instruction and the Controller for the State of California with regard to similar audit findings related to the District's Choice 2000 Online Charter High School for fiscal years 2006-07 through 2012-13. The agreement fully and completely resolves all claims, demands, appeals, obligations, and causes of actions arising from the audit findings for the seven fiscal years audited. The District has agreed to repay, from its future apportionments, ten percent of the amount of the total overpayment for each audited fiscal year and for the aggregate of the seven years, for a total of \$817,799. These payments will be made in eight annual installments, commencing in fiscal year 2014-2015. No interest shall be charged or accrued on the repayment amounts. As of June 30, 2017, the remaining future payment due was approximately \$511,125, the repayment schedule is summarized as follows:

<u>Fiscal Year</u>	<u>Settlement Payment</u>

### **NOTE 10 - NON-OBLIGATORY DEBT**

Non-obligatory debt relates to debt issuances by the Community Facility Districts, as authorized by the Mello-Roos Community Facilities Act of 1982 as amended, and the Mark-Roos Local Bond Pooling Act of 1985, and are payable from special taxes levied on property within the Community Facilities Districts according to a methodology approved by the voters within the District. Neither the faith and credit nor taxing power of the District is pledged to the payment of the bonds. Reserves have been established from the bond proceeds to meet delinquencies should they occur. If delinquencies occur beyond the amounts held in those reserves, the District has no duty to pay the delinquency out of any available funds of the District. The District acts solely as an agent for those paying taxes levied and the bondholders, and may initiate foreclosure proceedings. Special assessment debt of \$44,850,000 as of June 30, 2017, does not represent debt of the District and, as such, does not appear in the accompanying basic financial statements.

**NOTE 12 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION**

**Plan Description**

The Postemployment Benefits Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the Perris Union High School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of three retirees and beneficiaries currently receiving benefits.

**Contribution Information**

For fiscal year 2016-2017, the District contributed \$53,670 to the Plan, all of which was used for current premiums.).

**Annual OPEB Cost and Net OPEB Obligation**

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 53,670
Interest on net OPEB obligation	-
Adjustment to annual required contribution	-

Contributions made	<u>53,670</u>

**Trend Information**

Trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

**Funded Status and Funding Progress**

A schedule of funding progress as of the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Liability (AAL) - Unprojected Unit Credit (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ([b - a] / c)
June 1, 2009	\$ -	\$ 422,309	\$ 422,309	0%	\$ -	0%

Actuarial valuations of an ongoing Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**NOTE 13 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft, damage, and destruction of assets; errors and omissions, injuries to employees, life, and health of employees and natural disasters. The District purchases coverage for property damage with limits up to a maximum of \$250,000,000, subject to various policy sublimits generally ranging from \$500 to \$100,000,000 and deductibles ranging from \$500 to \$5,000. The District also purchases coverage for general liability claims with limits up to \$1,000,000 per occurrence with excess liability coverage up to \$25,000,000 per occurrence and \$60,000,000 in the aggregate, all subject to various deductibles up to \$5,000 per occurrence. The District participates in a finite risk sharing pool for workers' compensation coverage up to \$150,000,000 per occurrence with no self-insured retention. Employee health benefits are covered by a commercial insurance policy purchased by the District. The District provides health insurance benefits to District employees electing to participate in the plan by paying a monthly premium based on the number of District employees participating in the Plan.

**Property and Liability**

The District is exposed to various risks of loss related to torts, theft, damage, and destruction of assets; errors and omissions, injuries to employees, life, and health of employees and natural disasters. During fiscal year ending June 30, 2017, the District pooled for property and liability coverage as a member of Riverside Schools' Insurance Authority, a Joint Powers Authority. Settlement claims have not exceeded the limits of this coverage in any of the past three years.

### Workers' Compensation

For fiscal year 2017, the District participated in the Riverside Schools' Risk Management Authority (RSRMA), a workers' compensation coverage purchasing pool. The intent of RSRMA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants. RSRMA, in turn, pools for workers' compensation coverage through their membership in the Protected Insurance Program for Schools and Community Colleges (PIPS), a finite risk sharing pool. Pooling in this manner allows the member districts and joint powers authorities to take advantage of increased purchasing power and greater spread of risk. As a member of PIPS, RSRMA is assigned a rate based on the JPA's overall payroll and loss experience compared to the other members within PIPS. Each participant in RSRMA pays its workers' compensation premium based on its individual rate which is weighted based on their payroll and loss experience within RSRMA. This arrangement insures that each participant shares equally in the overall performance of RSRMA. Participation in RSRMA is limited to districts that can meet the selection criteria.

### Employee Medical Benefits

The District is a member of the Riverside Employer/Employee Partnership (REEP) to provide employee health benefits. REEP is a shared risk pool comprised of various school districts. Rates are set through an annual calculation process. The District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all participating districts. Claims are paid for all participants regardless of claims flow. The Board of Directors has a right to return monies to a district subsequent to the settlement of all expenses and claims if a district withdraws from the pool.

### NOTE 14 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2017, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense
CalSTRS	\$ 78,071,403	\$ 18,604,181	\$ 1,904,463	\$ 8,574,472

## NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2017**

---

The details of each plan are as follows:

### **California State Teachers' Retirement System (CalSTRS)**

#### **Plan Description**

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2015, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publically available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

#### **Benefits Provided**

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

Required employee contribution rate	10.25%	9.21%
Required employer contribution rate	12.58%	12.58%
Required State contribution rate	8.828%	8.828%

### Contributions

Required member District and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven year period. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the District's total contributions were \$6,213,465.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the District were as follows:

Total Net Pension Liability, Including State Share:

District's proportionate share of net pension liability	\$ 78,071,403
State's proportionate share of the net pension liability associated with the District	44,444,657
Total	<u>\$ 122,516,060</u>

The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively, was 0.0965 percent and 0.0876 percent, resulting in a net increase in the proportionate share of 0.0089 percent.

**PERRIS UNION HIGH SCHOOL DISTRICT**

**NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2017**

For the year ended June 30, 2017, the District recognized pension expense of \$8,574,472. In addition, the District recognized pension expense and revenue of \$4,296,044 for support provided by the State. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 6,213,465	\$ -
Net change in proportionate share of net pension liability	6,184,077	-
Difference between projected and actual earnings on pension plan investments	6,206,639	-
Difference between expected and actual experiences in the measurement of the total pension liability	-	1,904,463
Total	<u>\$ 18,604,181</u>	<u>\$ 1,904,463</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) Amortization
2018	\$ 135,409
2019	135,409
2020	3,607,941

Total	<u>\$ 6,206,639</u>

**PERRIS UNION HIGH SCHOOL DISTRICT**

**NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2017**

---

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 7 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2018	\$ 701,550
2019	701,550
2020	701,550
2021	701,550
2022	701,550
Thereafter	771,864
Total	<u>\$ 4,279,614</u>

**Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2014, and rolling forward the total pension liability to June 30, 2015. The financial reporting actuarial valuation as of June 30, 2014, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 2006 through June 30, 2010
Actuarial cost method	Entry age normal
Discount rate	7.60%
Investment rate of return	7.60%
Consumer price inflation	3.00%
Wage growth	3.75%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

**PERRIS UNION HIGH SCHOOL DISTRICT**

**NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2017**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that the annual returns are lognormally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation is based on Teachers' Retirement Board of the California State Teachers' Retirement System (board) policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

**Discount Rate**

The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.60%)	\$ 112,362,356
Current discount rate (7.60%)	78,071,403
1% increase (8.60%)	49,591,330

**California Public Employees Retirement System (CalPERS)**

**Plan Description**

Qualified employees are eligible to participate in the School Employer Pool (SEP) [and the Safety Risk Pool] under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plans regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2014 annual actuarial valuation report, Schools Pool Actuarial Valuation, and the Risk Pool Actuarial Valuation Report, Safety 2014. This report and CalPERS audited financial information are publically available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

**Benefits Provided**

CalPERS provide service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2017, are summarized as follows:

	<u>School Employer Pool (CalPERS)</u>	
	<u>On or before</u>	<u>On or after</u>
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62

### Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2017, are presented above and the total District contributions were \$2,595,788.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$28,372,895. The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2016 and June 30, 2015, respectively, was 0.1437 percent and 0.1352 percent, resulting in a net increase in the proportionate share of 0.0085 percent.

For the year ended June 30, 2017, the District recognized pension expense of \$4,759,367. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 2,595,788	\$ -
Net change in proportionate share of net pension liability	1,764,560	
Difference between projected and actual earnings on pension plan investments	4,402,560	-
Difference between expected and actual experiences in the measurement of the total pension liability	1,220,306	-
Changes of assumptions	-	852,436
Total	<u>\$ 9,983,214</u>	<u>\$ 852,436</u>

## NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2017**

---

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows of Resources
2018	\$ 617,517
2019	617,518
2020	2,018,497
2021	1,149,028
Total	<u>\$ 4,402,560</u>

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARS�) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARS� for the measurement period is 3.9 years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows (Inflows) of Resources
2018	\$ 1,136,572
2019	565,590
2020	430,268

### Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2015
Measurement date	June 30, 2016
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.65%
Investment rate of return	7.65%
Consumer price inflation	2.75%
Wage growth	Varies by entry age and service

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include five years of projected ongoing mortality improvement using Scale AA published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	51%	5.71%
Global debt securities	20%	2.43%
Inflation assets	6%	3.36%
Private equity	10%	6.95%
Real estate	10%	5.13%
Infrastructure and Forestland	2%	5.09%
Liquidity	1%	-1.05%

### Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

<u>Discount rate</u>	<u>Net Pension Liability</u>
1% decrease (6.65%)	\$ 42,332,517
Current discount rate (7.65%)	28,372,895
1% increase (8.65%)	16,748,762

### On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$3,609,264 (8.828 percent of annual payroll). Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures; however, guidance received from the California Department of Education advises local educational agencies not to record these amounts in the Annual Financial and Budget Report. These amounts have not been included in the budget amounts reported in the *General Fund - Budgetary Comparison Schedule*. These amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves.

## NOTE 15 - COMMITMENTS AND CONTINGENCIES

### Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

### Litigation

The District is not currently a party to any legal proceedings

### **NOTE 16 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS**

The District is a member of the Riverside Schools Risk Management Authority (RSRMA), Riverside Employer/Employee Partnership (REEP), and the Riverside Schools' Insurance Authority (RSIA) public entity risk pools. The District pays an annual premium to the applicable entity for its health, workers' compensation, and property liability coverage. The relationships between the District and the pools are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are generally available from the respective entities.

During the year ended June 30, 2017, the District made payments of \$1,788,498, \$8,444,173, and \$665,779 to RSRMA, REEP, and RSIA, respectively, for its workers' compensation, health, and property liability coverage.

### NOTE 1 - PURPOSE OF SCHEDULES

#### **Budgetary Comparison Schedule**

This schedule presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

#### **Schedule of Other Postemployment Benefits (OPEB) Funding Progress**

This schedule is intended to show trends about the funding progress of the District's actuarially determined liability for postemployment benefits other than pensions.

#### **Schedule of the District's Proportionate Share of the Net Pension Liability**

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

*Changes in Benefit Terms* - There were no changes in benefit terms since the previous valuations for both CalSTRS and CalPERS.

*Changes in Assumptions* - There were no changes in economic assumptions for either the CalSTRS or CalPERS plans from the previous valuations.

#### **Schedule of District Contributions**

This schedule presents information on the District's required contribution, the amounts actually contributed, and any excess or deficiency related to the required contribution. In the future, as data becomes available, ten years of information will be presented.

**NOTE 1 - PURPOSE OF SCHEDULES**

**Schedule of Expenditures of Federal Awards**

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts consist primarily of Medicaid Program funds that in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period. In addition, Medicaid Program funds have been recorded in the current period as revenues that have not been expended as of June 30, 2017. These unspent balances are reported as legally restricted ending balances within the General Fund.

**Local Education Agency Organization Structure**

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

**Schedule of Average Daily Attendance (ADA)**

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

## **NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2017**

---

### **Schedule of Instructional Time**

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

### **Reconciliation of Annual Financial and Budget Report with Audited Financial Statements**

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

### **Schedule of Financial Trends and Analysis**

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

### **Schedule of Charter Schools**

This schedule lists all charter schools chartered by the District, and displays information for each charter school on whether or not the charter school is included in the District's audit.

### **Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances**

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances are included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

---

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board  
Perris Union High School School District  
Perris, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Perris Union High School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Perris Union High School District's basic financial statements, and have issued our report thereon dated December 8, 2017.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Perris Union High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Perris Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Perris Union High School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Perris Union High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal Program**

We have audited Perris Union High School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Perris Union High School District's (the District) major Federal programs for the year ended June 30, 2017. Perris Union High School District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Perris Union High School District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Perris Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of Perris Union High School District's compliance.

## ***Opinion on Each Major Federal Program***

In our opinion, Perris Union High School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2017.

## **Report on Internal Control Over Compliance**

Management of Perris Union High School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Perris Union High School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Perris Union High School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board  
Perris Union High School District  
Perris, California

### **Report on State Compliance**

We have audited Perris Union High School District's (the District) compliance with the types of compliance requirements as identified in the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* that could have a direct and material effect on each of the Perris Union High School District's State government programs as noted below for the year ended June 30, 2017.

### ***Management's Responsibility***

Management is responsible for compliance with the requirements of State laws, regulations, and the terms and conditions of its State awards applicable to its State programs.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance of each of the Perris Union High School District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2016-2017 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Perris Union High School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Perris Union High School District's compliance with those requirements.

### ***Unmodified Opinion on Each of the Programs***

In our opinion, Perris Union High School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2017.

**Other Matters**
